

Sudoku con flechas repetibles

Coloca los números del 1 al 9 en cada casilla vacía, de manera que cada número aparezca exactamente una vez en cada fila, columna y en cada una de las 9 áreas 3x3.

La suma de los números a lo largo de cada camino de flecha debe ser igual al número en la casilla con círculo. Los números pueden repetirse dentro de la flecha.

A 9x9 Arrow Sudoku grid. The grid is divided into 9 main squares (3x3). Some squares contain a number inside a circle, indicating the sum of the path through that square. Arrows point from the center of these circled squares to specific cells. The grid contains the following values:

5	1	9	8	3	4	7	6	2
6	8	2	9	1	7	5	3	4
3	7	4	2	5	6	1	9	8
9	5	1	7	8	2	3	4	6
2	6	7	3	4	5	8	1	9
4	3	8	1	6	9	2	5	7
7	2	3	4	9	1	6	8	5
1	4	6	5	2	8	9	7	3
8	9	5	6	7	3	4	2	1

Arrows indicate paths from circled sum cells to specific grid cells. For example, the circled '6' in the first row has an arrow pointing to the '1' in the second row, first column. The circled '3' in the third row has an arrow pointing to the '1' in the fourth row, second column. The circled '8' in the fifth row has an arrow pointing to the '1' in the sixth row, first column. The circled '9' in the eighth row has an arrow pointing to the '5' in the ninth row, second column. The circled '6' in the ninth row has an arrow pointing to the '2' in the tenth row, third column. The circled '7' in the fourth row has an arrow pointing to the '2' in the fifth row, second column. The circled '1' in the second row has an arrow pointing to the '1' in the third row, first column. The circled '2' in the fifth row has an arrow pointing to the '2' in the sixth row, first column. The circled '5' in the sixth row has an arrow pointing to the '5' in the seventh row, first column. The circled '4' in the eighth row has an arrow pointing to the '4' in the ninth row, first column. The circled '1' in the ninth row has an arrow pointing to the '1' in the tenth row, second column. The circled '9' in the first row has an arrow pointing to the '9' in the second row, first column. The circled '2' in the second row has an arrow pointing to the '2' in the third row, first column. The circled '5' in the third row has an arrow pointing to the '5' in the fourth row, first column. The circled '6' in the fourth row has an arrow pointing to the '6' in the fifth row, first column. The circled '8' in the fifth row has an arrow pointing to the '8' in the sixth row, first column. The circled '1' in the sixth row has an arrow pointing to the '1' in the seventh row, first column. The circled '6' in the seventh row has an arrow pointing to the '6' in the eighth row, first column. The circled '3' in the eighth row has an arrow pointing to the '3' in the ninth row, first column. The circled '7' in the ninth row has an arrow pointing to the '7' in the tenth row, second column. The circled '4' in the tenth row has an arrow pointing to the '4' in the eleventh row, first column. The circled '2' in the eleventh row has an arrow pointing to the '2' in the twelfth row, second column. The circled '1' in the twelfth row has an arrow pointing to the '1' in the thirteenth row, third column.
